Station Offers Trophy To Boost Cougar Song

TO STIMULATE public interest in Cougar Fight Song Week, Provo radio station KOVO has offered a trophy for the Brigham Young University student or group which acn give the most spirited performance of the Cougar Song on the radio this week.

Performances will be judged by a panel of studentbody and station representatives on effectiveness, spirit, and musical quality. The winner will be presented a trophy by KOVO in the assembly on Thursday and will lead fans in singing the fight song during Saturday night's halftime activities.

"WE THINK it is important for Central Utah fans to know the Cougar Song. That's why we are encouraging social units, choruses and soloists to sing it as often as possible this week on KOVO," said Glenn Shaw, station manager.

Groups and individuals wishing to participate may make tape recordings for radio use by contacting Don Spainhower at KOVO or Rich Hall at the Daily Universe office.

The Student Program Bureau will present a special Cougar Song Week show on the Gordon Owen KTVT television program on Tuesday evening.

'Everyman' Begins Run Tomorrow

EVERYMAN, the finest and known of the morality plays he Middle Ages, will be presented February 6-9 at 8:15 p.m. he Smith Auditorium.

he play's universal religious al still makes for a deeply ing theatrical experience. English version of the play

aturday night's performe of "Everyman" will be at 10 p. m. instead of 8:15 n. so that persons desiring attend the BYU-U of U ketball game.

oduced into England during reign of Henry VIII, by an nown author, is a free adapn of an earlier Dutch work Peter of Diest.

HE THEME of "Everyman" e universal problem of humorality. This is the story he summoning of the rich yman whose life has been cated to earthly pleasures riches, by death.

. Preston R. Gledhill, dior for the play, has written pecial adaptation for this ence that will have much ter and more varied drac appeal.

& HAROLD I. Hansen has gned the large, simple setwhich features many comted lighting effects. Miss ilfred Bowers has designed costumes, and Ray Marshall Dick Gailey are in charge of and sound. Technical dirs are Robert E. Struthers George W. Tanner.

ckets are now on sale in the th Building ticket booth, and reserved seats may be obd with presentation of stucards.

Changes Slated Distributing Faculty Tickets

FACULTY members of Brig- Young University may now one of three methods to re- e basketball game tickets, rding to ticket officials.

Reservations may be made telephone on Tuesday and dnesday of the game week calling ext. 2362 or 2026.

Tickets may be picked up he ticket office in the Smith dhouse between 9-5 on Tuy or Wednesday of game ks.

Reservations may be rested through the mail. Let- should be mailed so as to ve no earlier than Monday he week of the game.

FACULTY members tickets be placed in individual enpes, and may be picked up he faculty entrance on the e nights.

icket office doors open at p. m All tickets not called by 7:55 p. m. on game its will be distributed to stus and the general public, acing to Ticket Manager d Taylor.

ickets not reserved in adce may be picked up by facmembers at the ticket offbegining at 5:55 p.m. on a come-first served basis.

FACULTY members are rested to refrain from requestspecific seats, due to diffiies in coordinating the three ems in allocating seats.

YUL, YUL AND YUL—"If you'll do it, I will!" were the words that prompted Scott Robertson (seated), Bill Ver Weire and Paul Pennell (right) to shave their heads "Brynner style."
(Photo by Jean Blanchard)

Need A "Cool-Yul?"...

BYU Males Emulate Brynner's Bald Pate

WITH YUL Brynner's bald pate becoming the newest symbol of virility, it was inevitable that some segment of the male population should emulate him. Last week three BYU students joined the ranks.

"Even 'a certain scholarly, independent-thinking professor' wanted to get a 'Brynner-cut,' until his wife cut his independence short," said Paul Pennell, member of the most exclusive group on campus.

In addition to Pennell the completed roster includes Scott Robertson and Bill Ver Weire.

THE FIRST organizational meeting took place at Allen Hall, and by the time it was adjourned the three had become 3rd degree Potentates in the "Cool-Yul" club.

Paul Pennell, president of the group on the strength of his superior convictions, is a senior majoring in political science. His home is in Arlington, Va., and his shiny dome was once hidden under light brown hair.

SCOTT Robertson and Bill Ver Weire are both freshmen. Robertson is a chemistry major from Burley, Ida., while Ver Weire is a marketing major from sunny Glendale, Calif. Each once owned a head covered with brown hair.

Oddly enough, none of the three seems too concerned about dating prospects. In fact, Paul Pennell cautiously confessed that he has received several offers of dates since the Remington ran rampant.

NEVERTHELESS, Scott Robertson and Bill Ver Weire have no intentions of carrying their luck too far. They are cultivating their crops.

Meanwhile, back at the barbershop, Paul Pennell is sticking by his razor despite such encouraging remarks as "Are you really from Mars?" and "You look horrible!" (To which he replies "Tank you!")

THE LEAST-inhibited of the trio, Paul Pennell feels it interesting to watch people's reactions. Some are conservative, others strong, but whatever is on the mind is plainly on the face.

Pennell also thinks his professors "have exhibited an admirable quality (and quantity) of broad-mindedness and restraint."

When asked "Why?" he thought for a few seconds then answered "Why not?" Explaining further, he said his "Cool-Yul" was neither the result of present anti-Elvis or pro-Brynner feelings.

There are five or six experienced "Brynner-cut" barbers at Allen Hall who will guarantee satisfaction at reasonable rates. There are special rates for coeds.

BYU Debate Team To Participate At Denver Confab

Forensic students from Brigham Young University will join students from 40 other western colleges and universities at the Rocky Mountain Speech Conference to be held at the University of Denver Feb. 7-9.

The BYU delegation will be accompanied by Jed Richardson, BYU speech instructor. Forensic events will include debate, discussion, extemporaneous speaking, oratory and interpretation.

Being held for the 26th year by the DU school of speech, the conference draws speech authorities from throughout the nation.

Among national leaders on the program are Dr. Harold Westlake, director of the speech and hearing clinic of Northwestern University; Dr. W. Charles Redding, associate professor of speech at Purdue University; and Houston Waring, noted editor of the weekly newspaper, the Littleton, Colo., Independent.

About 400 students, teachers and speech experts will attend from 14 states. Students from the University of Utah and Utah State Agricultural College will also attend the conference.

Blue 'Y's Appear At U of U

BLUE ENAMEL "Y's" were painted on several University of Utah fraternity houses during the weekend, it was learned Monday.

News of the incident was telephoned to Dean of Students, Wesley P. Lloyd by U of U's Dean William Blaesser. He reported that U of U officials are investigating the case, to determine the culprits.

Student Coordinator, Dr. Henry L. Isaksen said "If it was our (Brigham Young University) students, it is unfortunate that they retaliated."

IN MENTIONING retaliation, he referred to the recent theft of the Y Bell by several U of U students.

Dean Blaesser said that no assumptions have been made as to who did the deed.

According to Dr. Isaksen precautions are being taken on BYU's campus to guard against further retaliation by U of U students.

Last week a faculty-student behavior committee at the U of U commended BYU students and administration for avoiding retaliation activities after the Y Bell incident.

Devotional Speaker Chaplain At Prison

Tuesday's devotional assembly will be addressed by Ray F. Smith, chaplain at the Utah State Prison.

Chaplain Smith is scheduled to present the subject "Prison Work—You Can't Judge a Man by His Record."

For the past eight years he has been chaplain at the prison.

During his life, he has held nearly every position in the Church of Jesus Christ of Latter-day Saints except bishop and stake president. Chaplain Smith is also known to be a Book of Mormon scholar, and his appearance at the assembly is sponsored by the leaders of the church.

'Mystery Man' Ill In Moscow

by Charles H. Klensch

MOSCOW — INS — Moscow's 'mystery patient" who is suffering from a critical blood disease was described Monday as an important Soviet personality whose name was withheld on "political grounds."

Dr. Hans Shulten, West German blood specialist who was rushed to Moscow from Cologne Saturday, said the unidentified patient was important—but was not Deputy Premier Lazzar Kaganovich, as reported in an American newspaper.

HE SAID the mysterious official was referred to only as "the patient" and was being treated by a dozen Soviet specialists in addition to himself.

He said "the patient" worked normally until recently, and he has been told that his identity was withheld on "political grounds."

Shulten said he did not recognize "the patient" as belonging to the group of Russian leaders whose features are familiar to foreigners. He said he has no moustache—such as Kaganovich wears—and is a blading, greyhaired man.

Shulten said the patient is being given blood transfusions but that his disease has nothing to do with atomic radiation.

Snow Carnival Seeks Aid On Publicity Committee

Help is needed on the publicity committee for Snow Carnival. Persons interested may sign on the bulletin board outside the IOC office in the basement of the Student Service Center or phone Walt Winkelman at FR 3-2835.

Jet Bomber Crash In Atlantic Takes Life Of BYU Graduate

A JET BOMBER crash off the Massachusetts coast Friday took the life of a Brigham Young University graduate.

First Lt. Stanley D. Jenkins, Jr., 28, of Pendleton Ore., was one of four crewmen aboard a B-47 jet bomber that crashed into a stormy rolling sea within sight of several fishing vessels at Gloucester, Mass.

Lt. Jenkins

Lt. Jenkins body was found in a life jacket seven miles off the coast by coast guardsmen.

WITNESSES described the crash as making a "bomblike" road. A fisherman on the scene said "we heard a plane overhead in what appeared to be a zooming dive. It was in back of us, and I looked over the water to see the ocean light up as if an atom bomb was about to explode.

"The whole ocean seemed afire, blazing for a distance in either direction for 300-400 feet. There was a whooshing sound of an explosion—then only flames, and finally darkness.

THE LIEUTENANT was graduated from BYU in 1953. He was married to Marilyn Pond, Detroit. They have one son.

His brothers Gary and Larry Jenkins are now attending BYU.

While at BYU Lt. Jenkins was a member of Viking social unit, Kia Ora Club, Y's Men band, Wes Barry's band, Gus Sheild's band and ROTC concert band.

He received his degree in accounting and had served a mission in New Zealand for the Church of Jesus Christ of Latter-day Saints.

STEEL BY THE TON—Producing the steel needed in Utah and great amounts for surrounding states is Geneva Steel Corporation located on the edge of Utah Lake.

Scout Leader Joins Extension Division

David Paxman, Washington has been assigned as Boy Scout Pow-wow coordinator for the Brigham Young University Adult Education and Extension Services

The Pow-wow is a three-Saturday program scheduled for ...il Scouts from all over central Utah will attend classes to ... qualify for merit badges and rank advancement Nearly ...0 Scouts are expected to attend

Paxman a junior majoring in political science, has served a mission in the Great Lakes area and served in the Korean conflict He is a past Scoutmaster and Explorer adviser

Large Tree and Live Plants Grace Entrance of SFLC

by Dee Ann Sumner
Daily Universe Writer

A BEAUTIFUL "tree" which has no roots and is sans bark now adorns the lobby of the Smith Family Living Center

The polished wood of the "tree" twists and writhes in a gracefully artistic manner It is the craftsmanship of a Utah County man which made this work of art possible.

In a short while it will be surrounded by shrubs and a vine will be planted to wind around its graceful trunk

ALL OF THE other plants and trees found in the SFLC are originally from the tropical regions of the earth

Among the various plants represented in the large copper-lined planters in the lobby are one variety of Chinese Evergreen, three of Philodendron, three of Draccnae, two of Croton one of Sanseviera, three of Ivy, two of Defenbachia, one of Aucuba, two of the rubber tree and one of Peronia

A LARGE, split-leaf Philodendron, such as would be found in the most dense part of a jungle, may be found in the lobby This plant sends down air roots from its branches to feed the huge split leaves These roots must be cut off to keep the plants within the bounds of the building

The Croton has long, thin tightly-curled leaves which range in color from yellow, green-yellow, to shades of red and green all on the same leaf

Utah Valley Attraction— Geneva Steel Plant

by Vicki Soha
Daily Universe Writer

SITUATED near Utah Lake, about six miles northwest of Provo, the Colmbia-Geneva Steel Division of the United States Steel Corporation has been a tremendous attraction to visitors of Utah since it began operation in 1944

The Geneva plant is the center of this attraction This modern steel plant is the first of its kind and the largest in the West

BUILT primarily for defense during World War II, Geneva was built and operated by U S. Steel for the government without charge After the war, the government properties were purchased by US Steel and for some time continued to be operated by Geneva Steel Company. In 1953, the Columbia-Geneva Steel division came under the same management with US Steel.

Essential raw materials, iron ore, coal, and limestone are all accessible in Utah Iron ore mines are located in Cedar City, about 250 miles south of Geneva. Two open pit mines are found there.

MOST OF the coal comes about 130 miles from Dragerton in eastern Utah The two mines located there are deep under the earth's surface Because Utah's coal is relatively soft, it is mixed with a harder coal from other parts of the country to produce a good quality furnace coke. Limestone and dolomite help make up a slag to carry off impurities

Both products are quarried at the Keigley Quarry, 27 miles southwest of the plant. This is one of the few places in the United States where both limestone and dolomite can be taken from the same pit.

Another important resource in iron and steel production is water A 312 acre reservoir, containing 745 million gallons of water is located on the west side of the plant One third of this water is circulated through the plant daily.

BECAUSE one day's operations requires approximately 7,500 tons of ore, 5,500 tons of coal and 1,900 tons of limestone and dolomite, vast amounts of these materials are stocked. In storage, dumping machines and conveyor belts are used.

Transportation is another vital part of Geneva operations Two major railroads bring in raw materials to the plant and take away finished products. More than 1,200 railroad cars are brought into the plant ea... month on approximately ... miles of track

Many large trucks are al... being used to transport finish... products.

THE MOST vital departme... of Geneva is maintenance ... the more than 5,000 employe... approximately 1,600 work ... maintenance Besides the Ce... tral Maintenance Division s... vicing the entire works, each o... erating department has its ow... maintenance unit.

Geneva ranks high among ot... er steel plants of the nation T... present steel capacity is 1,87... 000 net tons of ingots.

Finished steel products ... clude plates, structural shap... hot rolled sheets and hot roll... coils. Other products manufa... tured are pig iron from the bl... furnaces, coke and coal chem... cals such as coal tar and s... phate of ammonia.

Facilities include a sheet m... structural mills, plate and st... mills, rolling mills, six batter... of coke ovens, a benzol pla... five blast furnaces where iron ... made, and ten open hearth fu... naces for steel.

THE OPEN-HEARTH st... making process is the most i... pressive of all Geneva wor... From the outside it appears ... be only a huge black buildi... but inside is a volcano like bu... bling sea of molten metal ... bright that without blue color... filter glasses all one can see ... a white hot glow. Workers ha... a Fourth of July every day ... the year with dynamite bla... and flying sparks of hot meta...

A unique feature of the ... dustry is the method of heat... the furnaces The burning f... and heated air sweep back a... forth across the surface of ... charge in the dish-shaped hea... generating temperatures as hi... as 3000 degrees fahrenheit. T... metal "cooks" from 8 to ... hours. The steel is lighter me... and flows to the top and off. T... hot metal is then molded i... ingots.

GENEVA fulfills the centu... old dream of Brigham You... and the early members of ... Church of Jesus Christ of L... ter-day Saints. Today the ea... Mormon hopes for a ferrous ... dustry large enough to supp... Utah's needs have been mo... than realized, for Geneva ... only satisfies the growing i... and steel requirements for ... state, but als furnishes la... tonnages to the entire int... mountain and Pacific coast r... ion

SHE BECOMES GOAT—Social Unit member [illegible] LaDean Olsen [illegible] a flower on [illegible] Ann Brown signifying that she was accept[illegible] into a unit. Men and women accepted into social units this quarter will spend the next two weeks working for active members and performing various services for the school and community. Photo by [illegible]

[illegible]shees End Whirl Of Parties, [illegible]gin Hectic Goating Activities

by Nadine Hall
[illegible]ly Universe Society Writer

[illegible] whirl of parties, impressive [illegible]ationals and last minute [illegible]es of which social unit to [illegible] has come to an end for all [illegible]es

[illegible]cial unit members an[illegible]ced which students were [illegible]d into their group by tele[illegible]ing, sending notes or sing[illegible]o their choices and present[illegible] flowers to them

[illegible]ursday evening these new [illegible]bers will attend their first [illegible]ing with social unit broth[illegible] and sisters. Here they will [illegible]ve instructions on goating [illegible] be assigned either a goat [illegible]ess or master.

[illegible]w comes the hectic two [illegible]s of goating which all [illegible]ees go through before they [illegible]me an official member of a [illegible]

[illegible]ocedures of goating vary [illegible] different groups Most male [illegible] have their pledges work [illegible] hour for each active mem[illegible] They are given a specific [illegible] in which they cannot speak [illegible]e opposite sex.

[illegible]eds who hear melodious [illegible]ns coming through their windows around five in the morning know that goating has begun From street meetings to old-fashioned duels on horses are some of the antics male pledges perform.

"Hell Night" ends goating for male rushees. They try to digest such delicacies as gold fish and alum and lard sandwiches New members also receive a swat from each active

Coed pledges are given such assignments as working for each member, giving a banquet to actives and presenting a program at the State Hospital.

Each woman makes an original scrapbook of their activities during rush week which members sign.

After these two weeks of goating are over, tired but joyful rushees receive their formal initiation They are sworn into the unit and take an official pledge

The group then sings unit songs and orders their pins and sweat shirts.

Being an official member now, males and coeds can participate in exchanges, assemblies, dinner-dances and any other projects in which the units participate

AWS Includes All Women Attending BYU

Last quarter a sophomore entered the Inter-Organization Council room and announced that she would like to join the social unit "AWS"

The startled receptionist had a difficult time trying to explain that every coed on campus is a member of this organization—Associated Women Students.

This large club is directed by Bonnie Berrett, Seattle, Wash., president; Donna Hamilton, Blackfoot, Ida, vice president; Ann Taylor, Piedmont, Calif., secretary; and Sally Emmett, Rochester, Minn, treasurer. They have a council of twelve coeds who serve as leaders in the organization's activities.

Their job is to create and complete a program of activities, help the girls on campus to become better acquainted with one another, and promote good will throughout the school.

AWS sponsors such activities as Preference Ball, big sister program, Songfest, Y Day, Christmas drive, Women's Week, transfer and foreign student parties, coed of the month, and traveling trophy award. Nearly every activity on campus is in some way connected with AWS.

Office hours for AWS are from 1 pm. to 4 pm Monday through Friday, room 179 Student Service Center Women who desire to help their organization by serving on committees are invited to make application at the office

New Recipe Found By Beef Industry

(by International News Service)

The beef industry believes it has a new market for cow meat.

Undecided yet what to call it, a concoction of 25 per cent ground dried beef mixed with coconut and toasted and blended with marshmallow or chocolate fudge is being readied for the candy market

Said to be the first time beef and sugar have been mixed successfully, the new addition to candy counters does not require refrigeration.

Four BYU Coeds Get Positions On College Board

NEW YORK, N. Y —Brigham Young University will be represented this year on Mademoiselle's national college board by Thelma Hatch, Bancroft, Ida.; Alleen Pace, Provo; Margaret Hunter, Salt Lake City; and Karen Breckon Smith, Phoenix, Ariz.

They are among the 650 students who competed with applicants from colleges all over the country to win places on the board, according to Mademoiselle.

As College Board members, they will represent their campuses and report to Mademoiselle on college life and the college scene. Each girl will complete two assignments that will help her explore her interests and abilities in writing, editing, fashion, advertising or art, in competition for the twenty guest editorships to be awarded by the magazine at the end of May.

Cats Down New Mexico 73-60

by Mark Murphy

Tom Steinke and John Benson, Brigham Young University's high-scoring duo, led the Cougars to an easy 73-60 win over New Mexico in Albuquerque Monday night.

Steinke accumulated 28 points while Benson garnered a 25-point total to spearhead the Cats to their fourth win out of five conference road games.

The Brighams were contented with a safe ten-point margin over the Lobos throughout the majority of the game, and were never pressed during the entire tilt.

Foul shooting was once again a big factor in the Cat win. Benson calmly rammed through 13 out of 13 attempts from the charity stripe. The entire team hit 19 for 22, which is tops in any man's league.

Coach Bill Stockton's Lobos, cellar dwellers in the Skyline Eight, were enable to contain the long-distance bombardment of the 5-10 Steinke who had partisan Lobo fans screaming for him to shoot.

Steinke broke the Cougars away from a 34-26 halftime lead with three quick long shots to give BYU a lead they never lost.

John Thiel of the Lobos hit for 19 markers to lead the New Mexico cause.

Roy Thacker found the range for 14 points for the Cougars followed by Harry Anderson with four and Lynn Rowe with 2. Russ Peterson gained one from the foul line.

For the front-running Cats it marked finis to one of their most successful swings through the eastern side of the rambling Skyline Conference. This year the Cougars swept all four games, something great BYU fives of the past have failed to do.

Only three Cougars figured in the first-half scoring. However, the torrid shooting of Steinke, Benson and Thacker was sufficient for a 34-26 lead at intermission.

Steinke garnered 12 points, hitting five of his first six shots. Benson and Thacker each accumulated 11 markers.

Steinke's patented jacknife shot from distant points of the court accounted for 10 points in the first six minutes of play, carrying the Cats to a commanding lead.

Thacker and Benson took the cue and boomed the Cats to their longest lead of 27-14.

With Thiel pumping in buckets with regularity, the Lobos picked away at the lead which fluctuated between 6 and 8 until the buzzer.

The Cougars, who return to Provo Tuesday afternoon, now face their sternest test of the season Saturday night agai[nst] the Redskins of Utah

Redskin Tilt on TV

Saturday night's basketba[ll] classic at Provo between Uta[h] and Brigham Young Unive[r]sity will be telecast, it was a[n]nounced Tuesday by Edwin [R.] Kimball, BYU director of at[h]letics.

The game, which is causi[ng] the usual amount of spirite[d] interest in Skyline sports ci[r]cles, will be carried ov[er] KSL-TV, Channel 5, beginni[ng] at 8 p.m.

Radio broadcasts of th[e] game will be carried by KS[L,] Salt Lake City; KOVO, Prov[o,] and KALL, Salt Lake City.

That's Rich

by Rich Hall

The winner of the Skyline Conference may well be decid[ed] this week in two games, one to be played at Salt Lake C[ity] Thursday night, the other at Provo Saturday night.

THURSDAY EVENING, Montana's surprising Grizzlies w[ill] journey to the University of Utah for their second meeting of [the] season with one of the poorer Ute teams in recent years. Saturd[ay] night the Redskins head for Provo to meet the Cougars of Br[ig]ham Young University.

The winner of the Thursday night tilt will assume the nu[m]ber two spot in the conference race. If Utah can pull a dou[ble] victory this week, it will jump from third to a tie for first pla[ce]. If it gets taken twice, a very good possibility, Utah will just ab[out] be out of the running with a 4-4 record.

Should Utah win them both, a two-way tie between the C[ats] and the Utes for the number one spot will result, postponing final decisions until BYU takes on Utah and Montana away fr[om] the confines of the friendly fieldhouse, and Utah journeys acr[oss] the mountains on the hated Eastern swing.

IF BYU CAN EMERGE victorious over the Redskins, the C[ats] will have a solid one game lead in thee race. However, if Monta[na] should also manage do the Utes dirt, and with the Cats having to face the Grizzlies at Missoula, Montana could tie BYU for f[irst] place honors.

Not very many people recognized anything approaching a t[itle] contender in Montana this year. Denver, Wyoming and Utah w[ere] originally picked as the real probables for the number one sp[ot] with BYU chosen to round out the top four, and the Grizz[lies] down in the second division somewhere.

Denver and Wyoming have proven to be somewhat dis[mal] failures as far as the conference crown race goes, and Utah, hav[ing] lost two games, doesn't appear to be the great club every[one] thought they were.

At any rate, this week just might tell the tale.
